WORK EXPERIENCE

- Blitzcode Systems** **Oct 2023 - Present**
Full Stack Developer
I am currently working as a Full-stack Developer at Blitzcode Systems, where I contribute to the development of web applications and mobile apps. I am responsible for designing and implementing frontend solutions, ensuring a seamless user experience and efficient performance. My work includes collaborating with cross-functional teams to create innovative solutions that meet business requirements and deliver high-quality results.
- Blitzcode Systems** **Jan 2023 - Oct 2023**
Full Stack Developer Intern
During my internship at Blitzcode Systems, I worked as a Full stack developer and actively participated in the development of a dynamic to-do list website. Throughout this experience, I gained hands-on expertise in building web applications using the MERN stack. The internship provided me with a valuable opportunity to enhance my skills and apply my knowledge in a real-world project, contributing to my professional growth.
- Recruit NXT** **Sep 2022 - Jan 2023**
Python Developer Intern
I completed my internship at Recruit Nxt, where I worked on OpenCV (Computer Vision) and the YOLO Algorithm. During my time there, I worked on an exam proctoring project. In that project, we developed a system to detect if a candidate was using a mobile device and headphones while taking an exam.
- Neeyamo Enterprise Solutions** **Apr 2021-Oct 2021**
Verification Specialist
I was previously an employee at Neeyamo Enterprise Solutions as a Verification Specialist with a demonstrated history of working in the human resources industry.
- VibrantMinds Technologies Pvt. Ltd** **July 2020-Sep 2020**
Web Developer Intern
I have worked with VibrantMinds Technologies Pvt.Ltd Company in the maintenance of their website. We have used HTML, CSS and Javascript for the frontend design of the website.

PROJECTS

- **Todolist Website and App**

A todolist website and app is a versatile tool for organizing tasks and managing time effectively. Whether accessed through a web browser or a mobile application. This todolist website and app empowers users to stay productive and accomplish their goals efficiently.

- **Gym Website Using HTML And CSS**

The Website name is "S3 Fitness Unisex Gym". It checks the validity of the information provided by the user. Storing information of members according to their ID. On the Website there is Diet Plans to give member according to their body type.

- **Real-Time Chat Application Using HTML,CSS,PYTHON,DJANGO**

Real-time chat is virtually any online communication that provides a real-time or live transmission of text messages from sender to receiver. This Project is to create a chat application with a server and users to enable the users to chat with each others
